SUMMARY

Full-stack software engineer with 2.5 years of experience delivering production **REST APIs**, enterprise integrations, and secure backend systems in **Node.js/Fastify** and **Python/Django**. Built crew-scheduling modules for a **Scandinavian Airlines** platform and payment-settlement APIs. **AWS Certified Developer – Associate**.

TECHNICAL SKILLS

- **Languages** : Python, Java, JavaScript, SQL
- **Frameworks** : Django, Django REST Framework, Node.js, Fastify, React.js, Spring Boot
- **Databases** : PostgreSQL, MySQL
- **Tools** : Git, GitHub, Docker, Postman, DBeaver, Jira
- **Cloud & Integration** : AWS, Azure Service Bus, SOAP Services
- **AI & GenAI** : GitHub Copilot, AI Agents, GPT Integration, Prompt Engineering
- **Concepts** : REST APIs, Microservices, RBAC, Authentication, Middleware, WebSockets, Agile

EXPERIENCE

- **Tata Consultancy Services (TCS)** June 2025 – Present
Full Stack Developer
 - **Engineered** 25+ production REST APIs using **Node.js (Fastify)** and **PostgreSQL** for the Scandinavian Airlines crew bidding and scheduling platform.
 - **Designed and shipped** the Bid Period, Bid Window, and Priority Management modules with complex business rules, backend validations, and workflow constraints.
 - **Integrated Azure Service Bus** and **SOAP** services to synchronize crew, roster, and operational data across multiple enterprise systems.
 - **Implemented** workflow validations and business logic to ensure accurate scheduling and policy compliance.
- **CSG Technosol Pvt. Ltd.** Jan 2025 – Jun 2025
Associate Developer
 - **Developed** 20+ secure REST APIs for **Payment Gateway** settlement workflows and reporting dashboards, with centralized exception handling for consistent responses.
 - **Refactored** 4 **Django** modules, cutting duplicate code by **~30%** and reducing average API response time from **900 ms to 300 ms**.
 - **Optimized** a bulk record-creation flow that ran inserts inside a loop, cutting processing time from **30s to 7s (~77% faster)** via batched bulk operations.
- **FaithCode Technologies** Feb 2024 – Jan 2025
Junior Software Engineer
 - **Developed** 30+ **Django** REST APIs for an **Applicant Tracking System (ATS)** covering candidate onboarding, interview scheduling, and placement workflows.
 - **Implemented GPT-based** job description parsing to convert unstructured documents into structured job data.
 - **Developed** reusable **React.js** components for recruiter-facing screens and collaborated with QA to ship production-ready features.

PROJECTS

- **Scandinavian Airlines Crew Bidding System (TCS)** Technologies: Node.js, Fastify, PostgreSQL, Azure Service Bus, SOAP
 - **Modeled** the relational schema and seniority-based bidding-priority algorithm driving crew assignment.
 - **Architected** event-driven integration between the scheduling engine and enterprise systems via Azure Service Bus.
- **CodeLens — Interactive Java Code Visualizer** Technologies: Java, Spring Boot, Java AST, JSON
 - **Built** an interactive Java code visualizer using AST parsing to render stepwise execution of program logic for learners.
 - **Generated** 80K+ JSON state traces to capture and replay runtime execution states for debugging and learning.

EDUCATION

- **Chaudhary Charan Singh University, Meerut** Apr 2018 – June 2021
Bachelor of Computer Applications (BCA)
- **Training Basket** May 2023 – Nov 2023
Full Stack Development Training

CERTIFICATIONS AND ACHIEVEMENTS

- AWS Certified Developer – Associate (DVA-C02)
- HackerRank: Python, SQL
- Claude Certified Architect – Professional
